

## BOSSARD SMARTLOCKER

# Safeguard valuable MRO materials

**Bossard SmartLocker is a secure, RFID access-controlled inventory system with a fully automated order process, ideal for storing your consumables and high-value Maintenance, Repair and Operations (MRO) items.**

The stored items can only be accessed by RFID recognition, ensuring full access and usage control. Relevant inventory data is transmitted to the operations dashboard of the ARIMS supply chain platform. Replenishment orders can be triggered automatically, ensuring you never run out of parts.

### FEATURES

-  **ACCESS CONTROL** – via identity card (RFID card)
-  **USAGE CONTROL** – via Web API
-  **FULLY AUTOMATED** order process
-  **WEIGHT SENSORS** – Physical stock information

-  **FULL CYCLE CONTROL**
-  **ARIMS** – Access to operation dashboard

### YOUR BENEFITS

- RELIABLE THEFT PROTECTION**  
 Access control via RFID
- SHORTENED ORDER AND DELIVERY TIMES**  
 Automatic reordering of items
- EASY TO REPLENISH**  
 No repacking of items required
- TRANSPARENT DOORS**  
 Optimal visibility and accessibility
- MAINTENANCE FREE**

## HOW SMARTLOCKER WORKS

### STEP 1

Continuous stock monitoring.  
User identifies with (corporate) RFID-Batch/Key.

### STEP 2

Doors open.  
User withdraws material.

### STEP 3

Doors are closed.  
SmartLocker determines new stock.

### STEP 4

User information and usage are transmitted to ARIMS.

## WITH ARIMS YOU HAVE A DIGITAL COCKPIT AS WELL AS A MOBILE VERSION
