BOSSARD SMARTLABEL CLOUD

ORDER PROCESS WITH BOSSARD SMARTLABEL CLOUD

1. **Demand recognition**
   Operator pushes the order button on the SmartLabel.

2. **Seamless order management**
   Data is transmitted to Bossard and processed efficiently. The order status and delivery date on the label are updated automatically.

3. **Consolidated shipment**
   Ordered items are consolidated and shipped to your factory.

4. **Delivery and replenishment**
   Depending on the service level, ordered items are delivered either to your dock, supermarket or directly to the point of use. The replenishment of the correct bin is confirmed with a press of a button.
