ARIMS - DIGITAL SOLUTION

Collaborative Supply Chain Platform

The cloud-based, AI-powered inventory management software ARIMS is the core of our supply chain solution. With all your data in one place, it gives you full control of your material flow - anytime, anywhere, on any device.

Track your orders, manage your inventory interactively and access intelligent analytics. These functions enable improved supply chain predictability and efficiency. ARIMS grants you full transparency of your B- and C-parts - anytime and everywhere.

FEATURES

INTUITIVE & SIMPLE PLATFORM

GLOBAL INVENTORY TRANSPARENCY

GRAPHICAL ANALYSIS & REPORTS

REAL-TIME DATA

24/7 MODIFICATIONS

ERP INTEGRATION

MOBILE APP FOR SMART DEVICES

YOUR BENEFITS

LEVERAGE YOUR DATA
Harness your data to detect your own unique optimization potential.

FULL TRANSPARENCY AND PREDICTABILITY
Always know the status of your inventory and orders.

ALL INFORMATION IN ONE PLACE
Always up to date, accessible for authorized users.

INCREASED EFFICIENCY
Benefit from continuous optimization and leaner processes.

MOBILE APP
Access your data directly at the point of use.

WEB API
Retrieve and process stock and order related data from the system at any time.

ARIMS

ARIMS is a cloud-based platform with a user-friendly interface at the core of Bossard's Smart Factory Logistics. It supports B2B ERP integration, enables M2M communication, and brings Industry 4.0 to life in your production. The main features of ARIMS are as follows:

ARIMS Analytics - all data at a glance
ARIMS provides real-time visibility of your supply chain. It unifies data from B- and C-parts management and add-ons into one dashboard, with graphical analyses and reports for full transparency. Its intuitive interface keeps you in control at all times, offering a comprehensive overview of your locations, articles, orders, and deliveries.

ARIMS Interactive - customize your system in a simple way
With ARIMS Interactive, you can easily customize your system parameters. In addition, you can request larger adjustments to the solution by submitting a change request. All current and past changes are stored, giving you full visibility and control over your solution.

ARIMS Mobile - access your data anywhere
The ARIMS Mobile App gives you full control anytime, anywhere. Available for Android and iOS, it lets you access data on the production floor, find items, view details, and check orders in real time.

ARIMS is your step into a successful future of industry 4.0.
We would be happy to support and advise you.
