YOUR BENEFITS

LESS ADMINISTRATION

Streamline your supplier base with a Single Point of Contact for efficient information coordination.

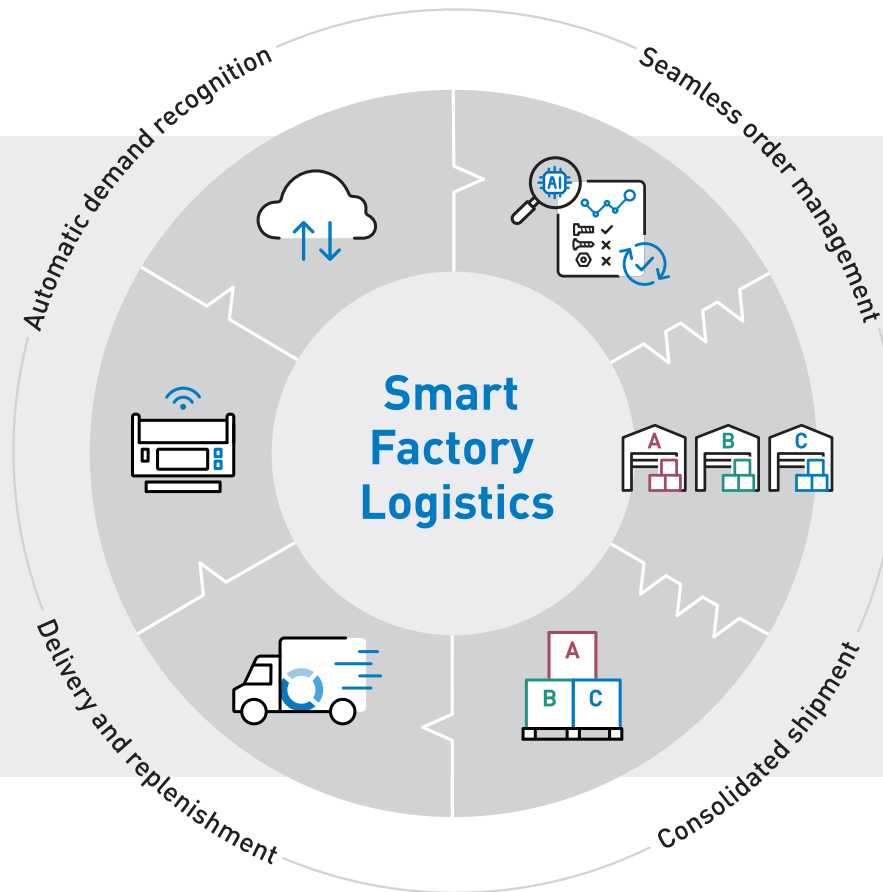

HIGHEST SUPPLY GUARANTEE

By integrating your existing B- and C-parts suppliers we guarantee a seamless order management to suppliers.

LOWER TOTAL COST OF OWNERSHIP (TCO)

Fewer transactions, optimized inventory, and more efficient procurement for lower TCO and improved operations.

SUPPLIER CONSOLIDATION SOLUTION

HOW WE MANAGE YOUR INVENTORY

1. Semi- and fully-automated smart Kanban systems monitor stock levels and trigger replenishment orders.
2. Our interactive supply chain platform ARIMS sends either a replenishment order directly to your supplier or an order proposal to your ERP.
3. Suppliers prepare the material according to the replenishment order and label them with the location of the item.
4. Depending on the service level, ordered items are consolidated into one shipment. The material is delivered either to your dock, supermarket or directly to the point of use.

Bossard Supplier Consolidation Solution is your step for a seamless supply of your B- and C-parts. We would be happy to advise and support you.
