Expert Walk

From Insight to Impact in Your Assembly Process

EXPERT WALK

From Insight to Impact in Your Assembly Processes

With an Expert Walk you gain clear insights into your assembly environment on the scope you choose. You reveal optimization potential in operations, quality and cost, from single fastening applications to entire assembly lines.

Our expertise lies in providing the right kind of fasteners for your product. We have the right knowledge to find the best one out of our wide range of fasteners which can optimize your product in the production line. The benefits are manifold:

ASSEMBLY COST REDUCTION

OPTIMIZED PROCESSES

QUALITY IMPROVEMENTS

HIGHER PRODUCTIVITY

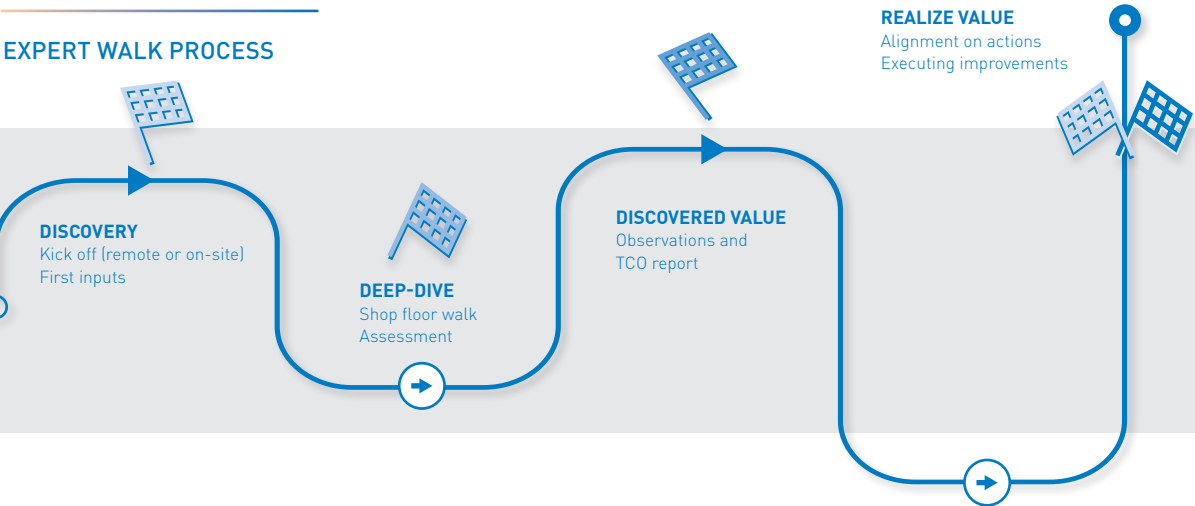

Use Expert Walk to uncover optimization potential and get a second specialist review of your assembly processes. Gain confirmation that you are on the right track and identify optimal solutions for existing challenges.

EXPERT WALK

From Analysis to Impact

Through a clear, step-by-step approach, we help you validate current practices, uncover improvement opportunities, and turn insights into measurable value.

DISCOVER	DEEP DIVE	DISCOVERED VALUE	REALIZE VALUE
First analysis to understand where we can help	Comprehensive analysis to the depth you choose (on site)	Presentation of observations and potential impact	Integration of agreed & measurable improvements
<ul style="list-style-type: none">Initial discussion to capture needs & prioritiesTargeted questions to identify focus areasEarly engineering input on potential solutionsNDA, upon request for transparency and comfort	<ul style="list-style-type: none">On-site review: single applications to full linesAdvisory on fasteners, joints and process flowAssessment of tools, equipment and settingsAnalysis of quality performance & failures	<ul style="list-style-type: none">Easy explained report summarizing findingsIdentified optimization opportunitiesInitial TCO / value estimation and cost driversIndication of quality improvement & potential risk	<ul style="list-style-type: none">Customer decision alignment on recommended actionsExecuting improvementsTurn insights into measurable shop-floor results
