

# SAFETY DATA SHEET

**Product Name: Zodiac Supreme Pool Algaecide**

## Section 1 – Identification of the Material and Supplier

<b>Product Name:</b>	<b>Zodiac Supreme Pool Algaecide</b>	
<b>Product Code:</b>	WPQLGA1, WPQLGA20	
<b>Product Use:</b>	Algaecide for pools.	
<b>Company Details:</b>	Fluidra NZ Ltd 13 Douglas Alexander Parade Rosedale, Auckland 0751 NEW ZEALAND	Fluidra Group Australia Pty Ltd 1 Herbert Place Smithfield, New South Wales 2164 AUSTRALIA
<b>Telephone Numbers:</b>	+64 800 807 665	+61 1300 763 021
<b>24hr Emergency:</b>	0800 734 607	1800 033 111
<b>Emergency Telephone:</b>	National Poisons Centre New Zealand  Poisons Information Centre Australia	0800 POISON (0800 764 766) 13 11 26

## Section 2 – Hazards Identification

Classified as a hazardous substance according to the criteria in the New Zealand Hazardous Substances (Hazard Classification) Notice 2020.

This material is classified as hazardous according to the criteria of Safe Work Australia.

Classified in New Zealand as dangerous goods for transport according to NZS5433:2020 Transport of Dangerous Goods on Land and exempted from the Australian Code for the transport of Dangerous Goods (ADG) when shipped by land in packages below 500kg or IBC's.

Classified as a Marine Pollutant based on International Maritime Dangerous Goods (IMDG) Regulations.

**SUSMP Classification:** S6

**Signal word:** **WARNING.**

**GHS Categories:** Acute Oral Toxicity – Category 4  
Acute Inhalation Toxicity – Category 4  
Hazardous to the aquatic environment – Acute – Category 1  
Hazardous to the aquatic environment – Chronic – Category 1

### HAZARD STATEMENTS:

H302 Harmful if swallowed.  
H332 Harmful if inhaled.  
H400 Very toxic to aquatic life.  
H410 Very toxic to aquatic life with long lasting effects.

### PREVENTION

P102 Keep out of reach of children.  
P103 Read carefully and follow all instructions.  
P261 Avoid breathing spray or mist.  
P264 Wash contacted areas thoroughly after handling.  
P270 Do not eat, drink or smoke when using this product.  
P271 Use only outdoors or in a well-ventilated area.  
P273 Avoid release to the environment.

### RESPONSE

P101 If medical advice is needed, have product container of label at hand.  
P301+P312 IF SWALLOWED: Call a POISON CENTRE or doctor if you feel unwell.

P304+P340  
P312  
P330  
P391

IF INHALED: Remove person to fresh air and keep comfortable for breathing.  
Call a POISON CENTRE or doctor if you feel unwell.  
Rinse mouth.  
Collect spillage.

#### STORAGE

None.

#### DISPOSAL

P501 Disposal of contents/container should be made in accordance with all applicable regional, national and local laws and regulations.

### Section 3 – Composition/Information on Ingredients

Ingredient	CAS Number	Content (%w/w)
Poly[oxyethylene(dimethylimino)ethylene(dimethylimino)ethylene] Dichloride	31075-24-8	>60%
Other non-hazardous ingredients	-	balance

### Section 4 – First Aid Measures

#### General Information:

You should call The Poisons Information Centre if you feel that you may have ingested or inhaled this product. The number is 13 11 26 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS or product label with you when you call.

**Inhalation:** If exposure occurs, move affected person from contaminated area to fresh air. Keep at rest until recovered. Obtain medical attention if symptoms develop or persist. If not breathing give artificial respiration.

**Skin Contact:** Wash affected area well with soap and water.

**Eye Contact:** Immediately flush the contaminated eye(s) with water for 5 minutes whilst holding eyelids apart. Remove contact lenses if present and easy to do. Continue rinsing. Seek medical attention if irritation occurs or persists.

**Ingestion:** Never give anything by mouth to an unconscious person. If swallowed, rinse mouth, do NOT induce vomiting, and seek medical attention.

### Section 5 – Fire Fighting Measures

**Fire and Explosion Hazards:** The primary hazard in fires is usually inhalation of heated and toxic or oxygen deficient (or both), fire gases. There is no risk of an explosion from this product under normal circumstances if it is involved in a fire.

**Extinguishing Media:** Water fog or coarse spray is the preferred medium for large fires. Try to contain spills, prevent spillage entering drains or water courses.

**Precautions for Firefighters:** Keep upwind of fire. Firefighters should wear full protective clothing and self-contained breathing apparatus. If any quantity of this product is involved in a fire, call the fire brigade.

### Section 6 – Accidental Release Measures

**Spills and Disposal:** In the event of a major spill, extinguish and remove all sources of ignition. Stop leak if safe to do so. Contain and absorb spill. Protect drains. Sweep up and shovel into appropriately labelled containers for either salvage or disposal. Consider vacuuming area if practical. Recycle containers wherever possible after careful cleaning. After spills, wash area well, collect washings. If a significant quantity of material enters sewers or water ways, advise emergency services and relevant authorities immediately. Ensure legality of disposal by consulting regulations prior to disposal. Thoroughly launder protective clothing before storage or re-use. Advise laundry of nature of contamination when sending contaminated clothing to laundry.

**Personal Protection:** Wear protective clothing including eye/face protection, gauntlets and boots See below under Personal Protection regarding Standards relating to personal protective equipment. Suitable materials for protective clothing include rubber, nitrile, butyl rubber and neoprene. Eye/face protection should comprise as a minimum, protective goggles.

**Environmental Precautions:** Prevent spilled material from entering drains/surface waters/groundwater. If contamination has occurred, advise local emergency services.

### Section 7 – Handling and Storage

**Handling:** Wear appropriate personal protective equipment and clothing to prevent exposure. Check Section 8 of this SDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling to minimise risks to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

**Storage:** This product is a Scheduled Poison. Protect containers against physical damage. Inspect regularly for deficiencies such as damage. Have appropriate fire extinguishers in and near the storage area. Make sure that the

product does not come into contact with substances listed under Incompatibilities in Section 10. Check packaging – there may be further storage instructions on the label.

## Section 8 – Exposure Controls and Personal Protection

No exposure standards have been established for this product by Worksafe New Zealand and Safe Work Australia..

**Appropriate engineering controls:** The substance is hazardous and should be used in an open area with free-flowing air. If engineering control are not sufficient to control dust levels in the area, then suitable respiratory protection must be worn. Refer to AS/NZS 2865:2001 for further information concerning ventilation requirements.

### Personal Protective Equipment:

**Respiratory equipment:** If engineering controls are not effective in controlling dust, then an approved dust mask that complies with AS/NZS 1715:2009 must be utilised.

**Eye/Face:** Protective glasses or goggles that comply with AS/NZS 1336:2014.

**Skin:** Protective gloves that comply with AS/NZS 2161.2:2020.

## Section 9 – Physical and Chemical Properties:

<b>Appearance:</b>	Liquid
<b>Colour:</b>	Clear to pale yellow
<b>Odour:</b>	Mild characteristic
<b>pH @ 20°C:</b>	6 – 8
<b>Specific Gravity:</b>	1.15 g/mL @20°C
<b>Viscosity @ 20°C:</b>	No data available.
<b>Freezing Point:</b>	<-16°C.
<b>Boiling Point:</b>	>100°C.
<b>Flash point:</b>	No data available.
<b>Flammability:</b>	No data available.
<b>Explosive Limits:</b>	No data available.
<b>Vapour Pressure:</b>	No data available.
<b>Vapour Density:</b>	No data available.
<b>Solubility:</b>	Soluble.
<b>Partition Coefficient:</b>	No data available.
<b>Autoignition Temperature:</b>	No data available.
<b>Decomposition Temperature:</b>	No data available.

## Section 10 – Stability and Reactivity

**Chemical Stability:** Stable under normal conditions of handling and storage. May decompose at elevated temperatures.

**Incompatible Materials:** Anionic polymers.

**Hazardous Decomposition Products:** Combustion forms carbon dioxide and if incomplete carbon monoxide and possibly smoke. May from Hydrogen Chloride gas and other Chlorine byproducts. Carbon monoxide poisoning produces headache, weakness, nausea, dizziness, confusion, dimness of vision, disturbance of judgment and unconsciousness followed by coma and death.

**Hazardous Polymerisation:** This product will not undergo polymerisation reactions.

## Section 11 – Toxicological Information

### Potential Health Effects

#### Acute Toxicity:

**Oral:** This product is harmful by ingestion, based on the hazards and quantities associated with the ingredients in this formulation which have a toxicity classification.

**Dermal:** No data available.

**Inhaled:** This product is harmful by inhalation, based on the hazards and quantities associated with the ingredients in this formulation which have a toxicity classification.

**Eye Contact:** No data available.

**Skin Contact:** No data available.

#### Chronic Toxicity:

**Sensitisation:** No data available.

**Germ Cell Mutagenicity:** No data available.

**Carcinogenicity:** No data available.

**Reproductive Toxicity:** No data available.

**STOT – Single Exposure:** No data available.

**STOT – Repeat Exposure:** No data available.

**Aspiration Hazard:** No data available.

### Carcinogen Status:

**SWA:** No significant ingredient is classified as carcinogenic by SWA.

**NTP:** No significant ingredient is classified as carcinogenic by NTP.

**IARC:** Hydrochloric Acid is Class 3 – unclassifiable as to carcinogenicity to humans. See IARC website for further details.

## Section 12 – Ecological Information

**Ecotoxicity:** This product is very toxic to aquatic life with long lasting effects.

**Persistence and degradability:** No data available.

**Bioaccumulation:** No data available.

**Mobility:** No data available.

## Section 13 – Disposal Considerations

**Disposal Considerations:** Dispose of waste according to applicable local and national regulations. Wastes including emptied containers are controlled wastes and should be disposed of in accordance with all applicable local and national regulations. Do not allow into drains or watercourses or dispose where ground or surface water may be affected. To minimise personal exposure to the chemical, refer to Section 8 – Exposure controls and personal protections.

**Suggested Precautions:** Do not pierce, burn, cut, puncture or weld on or near containers. Empty containers may contain hazardous residues. Empty the container completely before disposal. Contaminated containers must not be treated as household waste.

## Section 14 – Transport Information

Classified as a Dangerous Good for transport according to NZS 5433:2020 Transport of dangerous Goods on Land & Dangerous Goods Rule 2005. Regulated for transport of Dangerous Goods: ADG, UN, IATA and IMDG

**Not subject to the ADG Code when transported in Australia by Road or Rail in packages 500kg(L) or less; or IBC's (refer to SP AU01).**

<b>UN Number:</b>	3082
<b>Proper Shipping Name:</b>	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S (contains Poly[oxyethylene(dimethylimino)ethylene(dimethylimini)ethylene] Dichloride
<b>Class:</b>	9
<b>Packing Group:</b>	III
<b>Marine Pollutant:</b>	Yes
<b>Special Provisions:</b>	274, 335, 375, 601
<b>Hazchem Code:</b>	•3Z
<b>Limited quantities:</b>	5L
<b>Packing Instructions:</b>	P001, IBC03, LP01, R001

## Section 15 - Regulatory Information

### Australia

**AICS:** This product is compliant with AICIS regulations.

### New Zealand:

**NZIOC:** All components are listed on the NZIOC.

**NZ EPA Approval Code:** Water Treatment Chemicals Subsidiary Hazard Group Standard 2020 – HSR002684.

### HSNO Controls:

Certified Handler  
Location Certificate  
Tracking  
Signage  
Emergency Response Plan

### Trigger Quantity

Not required  
Not required
