Minimises chlorine consumption in your pool

Upgrade your pool experience with AstralPool Mineral Guard – the future of secondary sanitisation.

AstralPool Mineral Guard leverages this ancient wisdom with its Nature2 technology. The Secret Recipe consists of 3 key ingredients to make the magic happen:

ALUMINA CORE: Highly engineered porous reservoir that holds metals and provides the time-release control of mineral ions.

SILVER: Used for millennia as an effective antimicrobial that kills bacteria, ensuring sustained and effective treatment in water for up to 6 months.

COPPER: Also used for eons as an effective algacide treatment for water, also lasting up to 6 months. Economical, effective, and safe for your pool.

Unlike other mineral ionisers, AstralPool Mineral Guard requires no power, just water flow and your primary sanitiser. Thanks to the patented CRT (Controlled Release Technology) it eliminates the need for constant testing and measuring of copper and silver levels. In fact we guarantee that our levels will remain below the staining threshold, and you won't risk voiding your pool shell manufacturer's warranty, whilst maintaining a perfect level of secondary sanitation.

Note: that Mineral Guard MUST be used with a primary sanitiser such as chlorine or with a saltwater chlorinator. Once installed just replace the Mineral Guard cartridge every 6mths to provide perfect health for your pool.*

ACHIEVE MINIMAL CHLORINE LEVELS

Regardless of your chlorine delivery system, AstralPool Mineral Guard will minimise chlorine use in your pool, promoting a healthier swimming environment. Proven to operate at 50% less chlorine than chlorine alone*

UNIQUE RESIDUAL SANITISING POWER

Unlike other systems secondary sanitisers such as Ozone, AOP or UV, AstralPool Mineral Guard leaves a residual sanitiser in the water, ensuring a safe and enjoyable swimming experience even when there is no water flow. This effectively maintains water health even if the pump stops working for an extended period of time.

EASY INSTALLATION WITH NO POWER REQUIREMENTS

This super easy-to-install unit requires no power, only water flow and chlorine to activate, making it hassle-free and energy-efficient.

COST-EFFECTIVE AND POWERFUL

Enjoy the most cost-effective and powerful secondary sanitiser available, providing unparalleled protection without breaking the bank.

HASSLE FREE

AstralPool Mineral Guard will not to stain your pool, ensuring both the longevity and aesthetic appeal of your investment.
