

# SAFETY DATA SHEET

**Product Name: Zodiac Fibreglass Stain Remover**

## Section 1 – Identification of the Material and Supplier

<b>Product Name:</b>	<b>Zodiac Fibreglass Stain Remover</b>	
<b>Product Code:</b>	WPQSPOT4	
<b>Product Use:</b>	Stain remover	
<b>Company Details:</b>	Fluidra NZ Ltd 13 Douglas Alexander Parade Rosedale, Auckland 0751 NEW ZEALAND	Fluidra Group Australia Pty Ltd 1 Herbert Place Smithfield, New South Wales 2164 AUSTRALIA
<b>Telephone Numbers:</b>	+64 800 807 665	+61 1300 763 021
<b>24hr Emergency:</b>	0800 734 607	1800 033 111
<b>Emergency Telephone:</b>	National Poisons Centre New Zealand  Poisons Information Centre Australia	0800 POISON (0800 764 766) 13 11 26

## Section 2 – Hazards Identification

Classified as a hazardous substance according to the criteria in the New Zealand Hazardous Substances (Hazard Classification) Notice 2020.

This material is classified as hazardous according to the criteria of Safe Work Australia.

Not classified in New Zealand as dangerous goods for transport according to NZS5433:2020 Transport of Dangerous Goods on Land and in Australia according to the transport of Dangerous Goods (ADG) code.

Not classified as a Marine Pollutant based on International Maritime Dangerous Goods (IMDG) Regulations.

**SUSMP Classification:** S5

**Signal word:** **DANGER**

**GHS Categories:** Acute Oral Toxicity – Category 4  
Skin Irritation – Category 2  
Serious Eye Damage – Category 1  
Respiratory Sensitisation – Sub-Category 1A  
Skin Sensitisation – Sub-Category 1A

### HAZARD STATEMENTS:

H302 Harmful if swallowed.  
H315 Causes skin irritation.  
H317 May cause an allergic skin reaction.  
H318 Causes serious eye damage.  
H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.

### PREVENTION

P102 Keep out of reach of children.  
P103 Read carefully and follow all instruction.  
P261 Avoid breathing dust.  
P264 Wash hands thoroughly after handling.  
P270 Do not eat, drink or smoke when using this product.  
P272 Contaminated work clothing should not be allowed out of the workplace.  
P280 Wear protective gloves & eye protection.  
P284 Wear respiratory protection.

**RESPONSE**

P101	If medical advice is needed, have product container or label at hand.
P301+P312	IF SWALLOWED: Call a doctor if you feel unwell.
P302+P352	IF ON SKIN: Wash with plenty of water.
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a doctor.
P321	Specific treatment (see First Aid instructions on this label)
P330	Rinse mouth.
P333+P313	If skin irritation or rash occurs: Get medical advice
P342+P311	If experiencing respiratory symptoms: Call a POISON CENTRE or doctor.
P362+P364	Take off contaminated clothing and wash it before reuse.

**STORAGE**

None.

**DISPOSAL**

P501	Disposal of contents/container should be made in accordance with all applicable regional, national and local laws and regulations.
------	--

**Section 3 – Composition/Information on Ingredients**

Ingredient	CAS Number	Content (%w/w)
Sodium Metabisulphite	7681-57-4	100

**Section 4 – First Aid Measures****General Information:**

You should call The Poisons Information Centre if you feel that you may have ingested this product. The number is 13 11 26 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS or product label with you when you call.

**Inhalation:** If irritation occurs, move affected person from contaminated area to fresh air. Keep at rest until recovered. Obtain medical advice. If not breathing give artificial respiration.

**Skin Contact:** Take off affected clothing and wash affected area with water. If irritation or rash occurs seek medical advice.

**Eye Contact:** Immediately flush the contaminated eye(s) with water for 5 minutes whilst holding eyelids apart. Remove contact lenses if present and easy to do. If irritation persists seek medical attention.

**Ingestion:** Never give anything by mouth to an unconscious person. If swallowed, rinse mouth, do NOT induce vomiting, and contact a doctor.

**Section 5 – Fire Fighting Measures**

**Fire and Explosion Hazards:** There is no risk of explosion from this product if commercial quantities are involved in a fire. The primary hazard in fires is usually inhalation of heated and toxic or oxygen deficient (or both), fire gases.

**Extinguishing Media:** Water fog or coarse spray is the preferred medium for large fires. Try to contain spills, prevent spillage entering drains or water courses.

**Precautions for Firefighters:** Keep upwind of fire. Firefighters should wear full protective chemical clothing and self-contained breathing apparatus as product will decompose on heating. If any quantity of this product is involved in a fire, call the fire brigade.

**Section 6 – Accidental Release Measures**

**Spills and Disposal:** In the event of a major spill. Block all drains and protect waterways. Stop leak if safe to do so. Sweep up and shovel into appropriately labelled containers for either salvage or disposal. Consider vacuuming if appropriate. Recycle containers wherever possible after careful cleaning. After spills, wash area well with water. If a significant quantity of material enters sewers or water ways, advise emergency services and relevant authorities immediately. Ensure legality of disposal by consulting regulations prior to disposal. Wash protective clothing before storage or re-use.

**Personal Protection:** Wear eye/face protection, gauntlets. See below under Personal Protection regarding Standards relating to personal protective equipment. Suitable materials for protective clothing include rubber, nitrile, butyl rubber and neoprene. Eye/face protection should comprise as a minimum, protective goggles.

**Environmental Precautions:** Prevent spilled material from entering drains/surface waters/groundwater. If contamination has occurred, advise relevant local body.

## Section 7 – Handling and Storage

**Handling:** Wear appropriate personal protective equipment and clothing to prevent exposure. Check Section 8 of this SDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling to minimise risks to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

**Storage:** This product is not a Scheduled Poison. Store in a cool, dry well-ventilated area. Do not expose to temperatures above 80°C. Protect containers against physical damage. Inspect regularly for deficiencies such as damage. Make sure that the product does not come into contact with substances listed under Incompatibilities in Section 10. Check packaging – there may be further storage instructions on the label.

## Section 8 – Exposure Controls and Personal Protection

No exposure standards have been established for this product by Worksafe New Zealand and Safe Work Australia.

**Appropriate engineering controls:** The substance is hazardous and should be used in an open area with free-flowing air. If engineering control are not sufficient to control spray levels in the area, then suitable respiratory protection must be worn. Refer to AS/NZS 2865:2001 for further information concerning ventilation requirements.

### Personal Protective Equipment:

**Respiratory equipment:** If engineering controls are not effective in controlling dust, then an approved dust mask that complies with AS/NZS 1715:2009 must be utilised.

**Eye/Face:** Protective glasses or goggles that comply with AS/NZS 1336:2014.

**Skin:** Protective gloves that comply with AS/NZS 2161.2:2020.

## Section 9 – Physical and Chemical Properties:

<b>Appearance:</b>	Crystalline powder
<b>Colour:</b>	White
<b>Odour:</b>	Sulphurous
<b>pH @ 20°C:</b>	4.3 (1% aqueous solution)
<b>Specific Gravity:</b>	1.48g/ml @20°C
<b>Viscosity @ 20°C:</b>	No data available.
<b>Freezing Point:</b>	No data available.
<b>Boiling Point:</b>	No data available.
<b>Flash point:</b>	No data available.
<b>Flammability:</b>	No data available.
<b>Explosive Limits:</b>	No data available.
<b>Vapour Pressure:</b>	No data available.
<b>Vapour Density:</b>	No data available.
<b>Solubility:</b>	Soluble in water.
<b>Partition Coefficient:</b>	No data available.
<b>Autoignition Temperature:</b>	No data available.
<b>Decomposition Temperature:</b>	Over 150°C.
<b>Volatiles:</b>	No data available.

## Section 10 – Stability and Reactivity

**Chemical Stability:** Stable under normal conditions of handling and storage.

**Incompatible Materials:** Strong acids

**Hazardous Decomposition Products:** Reaction with strong acids liberates sulphur dioxide. Combustion forms carbon dioxide and if incomplete carbon monoxide and possibly smoke. May form sulphur oxides. Carbon monoxide poisoning produces headache, weakness, nausea, dizziness, confusion, dimness of vision, disturbance of judgment and unconsciousness followed by coma and death.

**Hazardous Polymerisation:** This product will not undergo polymerisation reactions.

## Section 11 – Toxicological Information

### Potential Health Effects

#### Acute Toxicity:

**Oral:** This product is considered to be harmful by ingestion based on the hazards and quantities associated with the ingredients in this formulation which have toxicity classifications.

**Dermal:** No data available.

**Inhaled:** No data available.

**Eye Contact:** This product is considered to be damaging to the eyes based on the hazards and quantities associated with the ingredients in this formulation which have irritancy/damage classifications.

**Skin Contact:** This product is considered to be irritating to the skin based on the hazards and quantities associated with the ingredients in this formulation which have irritancy/damage classifications.

**Chronic Toxicity:**

**Sensitisation:** This product is considered to be sensitising to skin and the respiratory system based on the hazards and quantities associated with the ingredients in this formulation which have sensitisation classifications.

**Germ Cell Mutagenicity:** No data available.

**Carcinogenicity:** No data available.

**Reproductive Toxicity:** No data available.

**STOT – Single Exposure:** No data available.

**STOT – Repeat Exposure:** No data available.

**Aspiration Hazard:** No data available.

**Carcinogen Status:**

**SWA:** No significant ingredient is classified as carcinogenic by SWA.

**NTP:** No significant ingredient is classified as carcinogenic by NTP.

**IARC:** No significant ingredient is classified as carcinogenic by IARC.

## Section 12 – Ecological Information

**Ecotoxicity:** This product is not toxic in the aquatic environment.

**Persistence and degradability:** No data available.

**Bioaccumulation:** No data available.

**Mobility:** No data available.

## Section 13 – Disposal Considerations

**Disposal Considerations:** Dispose of waste according to applicable local and national regulations. Wastes including emptied containers are controlled wastes and should be disposed of in accordance with all applicable local and national regulations. Do not allow into drains or watercourses or dispose where ground or surface water may be affected. To minimise personal exposure to the chemical, refer to Section 8 – Exposure controls and personal protections.

**Suggested Precautions:** Do not pierce, burn, cut, puncture or weld on or near containers. Empty containers may contain hazardous residues. Empty the container completely before disposal. Contaminated containers must not be treated as household waste.

## Section 14 – Transport Information

Not classified as a Dangerous Good for transport according to NZS 5433:2020 Transport of dangerous Goods on Land & Dangerous Goods Rule 2005. Not regulated for transport of Dangerous Goods: ADG, UN, IATA and IMDG.

## Section 15 - Regulatory Information

**Australia**

**AICS:** Sodium Metabisulphite is mentioned in the SUSMP.

**New Zealand:**

**NZIOC:** All components are listed on the NZIOC.

**NZ EPA Approval Code:** Water Treatment Chemicals Subsidiary Hazard Group Standard 2020 – HSR002684.

**HSNO Controls:**

Certified Handler  
Location Certificate  
Tracking  
Signage  
Emergency Response Plan

**Trigger Quantity**

Not required  
Not required  
Not required  
1,000kg (Serious Eye Damage 1)  
1,000kg (Respiratory Sensitisation 1A)

**Section 16 - Other Information****SDS Version Number:** 1.0

- Version 1.0 – SDS created 23/07/2025.

**SDS Effective Date:** 23 July 2025**SDS Review Date:** 23 July 2030**SDS Regulation:** The content and format of this SDS is in accordance with GHS 7, HSNO Approved Code of Practice (HSNOCOP 8-1 09-06) and SWA document "Preparation of Safety Data Sheets for Hazardous Chemicals – Code of Practice"**Disclaimer:**

This document is compiled based on current knowledge as provided by Fluidra NZ Ltd or information obtained from third party sources relating to safety and handling precautions for this product.
