

Product Discontinuation of the MODULE FBM Series

Dear Sir or Madam,

We would like to inform you about an upcoming change in our product portfolio that affects the MODULE FBM Series.

As part of our continuous portfolio optimization and to ensure long-term product availability, reliability, and technological relevance, the MODULE FBM Series will be discontinued. This decision is based on ongoing technical development.

Product Discontinuation Timeline

Please note the following key dates:

Last order: 30 June 2026
Last delivery: 30 September 2026
End of standard support: 30 September 2026

After the end of the standard support, Janitza will no longer provide regular technical support, firmware updates and repairs for the MODULE FBM Series. Warranty obligations for devices delivered prior to this date will, of course, be fulfilled in accordance with contractual terms. However, no new software features or non-critical bug fixes will be released.

Impact and transition guidance

Please note that there is no direct successor product for the MODULE FBM Series within our current portfolio.

To minimize the impact on your installations and future projects, Janitza will support you in identifying suitable alternative solutions based on your specific application, system architecture, and technical requirements.

Our sales staff and Solution Partners are available to answer technical questions or advise you on alternative devices.

Kind regards,

Michael Kadziela
Managing Director
