This policy outlines how Calvary will comply with the requirements of the [Voluntary Assisted Dying Act 2024 \(ACT\)](#) (the **Act**) and the [Voluntary Assisted Dying Regulation 2025 \(ACT\)](#) (the **Regulation**), and ensure that residents and patients are supported with compassion, respect and dignity when seeking information about access to voluntary assisted dying (**VAD**). This Policy applies to all Calvary operated hospitals and residential aged care services in the Australian Capital Territory (ACT) (**Calvary Facilities**) and to all staff, accredited health practitioners, contractors, students and volunteers working within those facilities.

## Policy

Calvary recognises the legal right of eligible people in the ACT to choose VAD as an end-of-life option in accordance with the Act.

Calvary will provide high-quality, compassionate care to all residents and patients, regardless of whether they are considering or accessing VAD.

Calvary treats all patients, residents, carers and staff with dignity and respect, in accordance with the [Human Rights Act 2004 \(ACT\)](#), recognising the diversity of values, beliefs and cultural perspectives within the community.

Calvary responds openly, sensitively and respectfully to all patients and residents who express a wish to explore or consider VAD.

If the Authorised VAD Practitioner or VAD-Related Visitors cannot visit the patient or resident on site, Calvary will facilitate a transfer to and from another suitable place where VAD steps can occur, consistent with s 105 of the Act.

When considering whether a transfer is reasonable, Calvary will consider:

- (a) The risk of the person losing decision-making capacity during the transfer;
- (b) Any risk of undue delay or prolongation of suffering;
- (c) The availability of an appropriate receiving facility; and
- (d) Potential cost or logistical implications for the individual or their carers.

The decision to approve or deem a transfer unreasonable will be made by the Deciding Practitioner in consultation with the individual and Calvary's facility management.

All transfer decisions and related correspondence shall be documented.

**(5) Further access where transfer is unreasonable**

If the Deciding Practitioner determines that a transfer is unreasonable, Calvary will allow Authorised VAD Practitioners and VAD-Related Visitors reasonable access to the patient or resident within the facility, as required by s 105 and s 106 of the Act.

**(6) Continued care**

Calvary will not withdraw, reduce or refuse to provide care to any patient or resident who is considering or accessing VAD. Calvary will continue to provide the same level of care to patients and residents, including clinical, palliative and pastoral care, consistent with the individual's needs and in alignment with Calvary's mission and values.

Calvary acknowledges that individual staff members may conscientiously object to involvement in VAD.

A staff member who holds a conscientious objection must:

- (a) Promptly inform their immediate manager; and
