

Eden Rock - St Barths x SeeMyCosmetics
The Boat Room: A beauty stop suspended above the sea

La Boat Room : Sea. Stop. Glow.

Eden Rock – St Barths and Elodie Raheria, founder of SeeMy Cosmetics, unveil the Boat Room: a suspended space above the water where beauty becomes an escape.

The Boat Room is not a treatment cabin, it is a floating sanctuary where science meets the senses.

A Cabin That Breathes

Warm wood. Soft, enveloping curves. The spirit of a 1970s cabin. And above all, the sea. Here, there is no playlist. You hear the gentle splash against the rocks. You are cradled by the water. The ultimate luxury is acoustic. A rare space, intimate, almost hidden. Each treatment flows to the rhythm of the sea.

Stop & Glow

The Boat Room introduces a new tempo. Stop. A moment between two swims. Movement suspended. Glow. Light returns. Within minutes, contours are re-sculpted. Tissues are drained. The skin regains its radiance. The scalp oxygenates. The eyes open up. Nothing superfluous.

Each gesture carries intention. Mastered high performance. A precise, immediate moment. Treatments nestle into a barber-style chair. A skin bar born from precision and the demand for instant results.

An Evident Encounter

SeeMyCosmetics embodies expert, technological, and resolutely innovative beauty. Eden Rock embodies an iconic art de vivre, where every space has a soul. The Boat Room is their meeting point. The couture of an icon. The pursuit of effectiveness.

A space that redefines treatment. This is not a numbered cabin. It is a signature.

The Promise

The Boat Room is the most intimate beauty escape in St Barths.

You don't come here to isolate yourself—you come to realign.

A cabin. The sea. A Stop & Glow. And the sound of water as the only soundtrack.

About SeeMyCosmetics

Founded by Élodie Raheria, SeeMy Cosmetics develops an expert approach to beauty at the crossroads of Beauty Tech, advanced cosmetics, and immediate results.

The brand stands out through targeted protocols dedicated to the face, eyes, and scalp, designed to act with precision on radiance, revitalization, and tissue longevity.

Conceived as short, high-efficiency rituals, SeeMy treatments combine innovative technologies, biotechnological actives, and expert gestures to offer visible, lasting, and differentiating results.

This contemporary vision of skincare, supported by over fifteen years of expertise and constant research into international innovations—blends performance, sensoriality, and personalization without excess.

Through signature treatments like the Korean Lift, an academy dedicated to Augmented Beauty, and collaborations with prestigious establishments, SeeMy Cosmetics offers a new interpretation of beauty: expert, technological, and resolutely innovative.
